Subject: RE: Request for EPA waste opinion on 4-methylcyclohexanemethanol (MCHM)

Hi Rick –

Sorry for not responding sooner, but I'm just returning from a week away from the office.

I don't recall such an opinion paper being drafted (or even being requested by the state). Let's discuss further when we're all back here this week.

Thanks –

Diane

Subject: Request for EPA waste opinion on 4-methylcyclohexanemethanol (MCHM)

Diane,

John Armstead received a request from WVDEP for a written statement regarding EPA's opinion on a waste determination for the chemical MCHM which was spilled in the Elk River, WV a couple of months ago. After talking to a few people here, I heard that such an opinion paper was drafted at WVDEP's request, but according to WVDEP, they never received it.

LCD would like to provide this document to WVDEP. I had heard that you had played a role in its development. We would like to get the ball rolling to provide this document which, I am sure, will need to go through a long concurrence chain.

Thanks,
